

Prior to externship, you must provide with the following immunizations records to Teri Fernandez the Director of Placement.

If you do not have your immunization record you will need to have a titer test done. You will need to get the immunization for those that you are not immune to.

Student responsibility

1. **Two (2) Step TB Test (PPD):** Pursuant to guidelines published by the Centers for Disease Control (CDC) MHMC requires a “two step” PPD (TB) test such that even with a negative PPD within the last year, a secondary test must be completed prior to commencement of fieldwork placement. If PPD is positive a negative chest x-ray must be submitted. The student may obtain this test, at his/her own expense at a Dr.’s office near them.
2. **Measles, Mumps & Rubella (MMR):** A documented serological immunity or 2 documented immunization records
3. **Chickenpox Varicella Zoster:** A documented serological immunity or 2 documented immunization records
4. **Documentation of Hepatitis B status:** Immunity demonstrated by hepatitis B antibody titer, or documentation of three (3) hepatitis B vaccine injections or proof you are currently receiving the series.
5. **Tetanus Diphtheria booster (tDAP):** Immunization record signed by a qualified health provider.
6. **Rubeola:** A documented serological immunity or 2 documented immunization records
7. **Influenza** (September – April)
8. **Verification of Color Vision**
9. **Covid 19 vaccine, 1st, 2nd, and boosters**

You may get a titer lab test if you do not have your immunization records.

HSTi responsibility

1. **Minimum 10 Panel Drug Screen**
2. **Criminal Background Check**
3. **Mask Fit Test**
